

ADENIJI OLUWAFERANMI

Who I am

I'm a Software Engineer willing to go up any length in optimizing, building and developing exceptional, scalable and high performance web applications. I have an eye for building pixel perfect, beautiful and intuitive apps.
I love to code slick and fast web apps.I take pride in products I build.
I believe React and components are the future
I am a problem solver.
When a complex obstacle presents itself,II enjoy finding my way around it with maximum efficiency.
I'm happy enough figuring things out in my terminal.

Education

SQI COLLEGE OF ICT
Software Engineering

Graduated 2018

Professional Experience

KOJI

Remote

Software Engineer

October 2017 - Date

- Build and deploy user oriented games for the gaming platform
- Implement complex web interfaces such as intricate trading workflows and complex financial reports using the latest front-end technologies
- Work in multidisciplinary team with other professionals such as back-end developers
